

1750

World Population  
694 million people

$1950 \pm 50$  AD

If you want uniform hours in the day, then you must banish apparent sun (as astronomer did in 18th cen)  
and put in its place the mean sun.

$1750 \pm 50$

Since industrial revolution began  
the concentration of carbon dioxide  
in the atmosphere has increased  
by almost 30 per cent.

We have modified 40 to 50%  
of the planet's surface to suit  
our needs.

1750 - 1830

The Industrial Revolution

July 28, 1750

Composer Johann Sebastian Bach  
died in Leipzig, Germany.

1750

World Population 710 M

C 1750

b 1706 → d 1790

Benjamin Franklin was the  
first American meteorologist.

Univ of Penn — 1751

Almanack 1732-1757

with no other clothes on  
than a shirt and a pair  
of long linen drawers."

C1750

1707-1778 Carolus Linnaeus

18th century Swedish botanist  
First proposed the classification scheme  
such living and fossil species have been  
given a distinctive two-part name  
(A Latin name).

Peach tree = PRUNUS PERSICA

DOG = CANIS FAMILIARIS

Oyster = CRASSOSTREA VIRGINICA

Plumtree = Prunus domestica

Cryptotis Conis LATRANS

1750

~~Jew Hat~~

Severe legislation against  
Jews in Prussia.

1750

population

Japan - 18 M

larger than France or Germany

China - 200 M

INDIA - 100 M

Americas - total about 10 M

native Americans

Duncan; Cal

May 10, 1750 England (old style)

Earl George Parker (1697-1764)  
delivered to the Royal Society an Address  
with title "Remarks upon Solar  
and Lunar Years, the cycle of 19 yrs,  
commonly called the Golden No., the  
Eptact, and a method of finding  
Easter as it is now observed in  
most Parts of Europe"

As a point of reference he gave  
the yr = 365d 5h 48m 55sec. calculated

by the late royal Astronomer Edmund  
Halley (1656-1742). The retired Sec of State  
Philip Dormer Stanhope (1694-1773) was  
in attendance & launched an effort  
to push for Cal.-reform in England.  
He went to the popular press.
